Queen's Convent School, Delhi

(Formerly Queen Mary's School, Rohini)

Report on Unified Cyber Olympiad 2021-22

Subject: Computer Science

India has seen a spectacular success in IT and computers which is acknowledged around the world. But computer education is highly fragmented and is without any common goal or platform. Realizing the huge importance of streamlined and competitive education in computers & IT and with a view to fortifying India's success, Unified Council has forayed into Unified Cyber Olympiad (UCO). This event is organized every year to motivate children to strengthen their knowledge of using mental ability, logical reasoning & computer knowledge. Proficiency in these areas will help them in overcoming problems related to software, management crises, lack of judgement and decision-making.

Students from classes 4 to 10 participated enthusiastically in this online competition in session 2021-2022. All received participation certificates.
